"The Sixties"
(English 395, History 367, American Studies 301)

This course is an attempt to capture and to convey to the students the rich flavor of dynamic social, cultural, and political events known as "The Sixties." The course title appears in quotation marks because the time frame is only approximate. The idea is to present an historical/popular cultural picture of America in the era synonymous with the Vietnam War, the Civil Rights Movement, widespread college and university campus activism, and urban unrest. Besides drawing on primary documents, fiction, poetry, and music of the period, we will draw on the personal experiences of faculty who "were there," many of whom participated in, or were eyewitnesses to, the dramatic challenges that occurred at that time of war, tumultuous political, gender and racial upheavals, and the momentous changes in the academy and intellectual discourse brought about by the experience. In short, the events will be refracted through the lens of academe as we examine, in detail, the generation of such contemporary interests as sexual and gender liberation, racial equality and diversity, post-colonial studies, revisionist history, and ethnography. Special attention shall be given to period literature, film, television, advertising, fine art, and popular music such as folk, jazz, blues and rock.

The most important aspect of the course is the sharing with our students some first hand, personal accounts of those times by their own professors who lived through and participated in campus and national issues of the era, and can speak to their personal involvement and bring an immediacy to the events that students may well regard as ancient or at least remote history. There will be no effort
to exclude anyone of any political persuasion either past or present. Indeed, opposing points of view are encouraged.

We think that anything that is as involved, convoluted, and multifaceted as the period we call "The Sixties" requires many personal perspectives of what we as students, faculty members, and a nation in flux felt so passionately about, and the meanings that we collectively and individually drew from living through it.

"The Sixties" course is privileged to feature distinguished panelists and guest speakers, many of whom are nationally and internationally renowned. These presenters provide important information that students are expected to give appropriate attention and attribution. Students are also encouraged to explore the period and issues beyond the course requirements and to make use of the rich listing of additional sources provided on the course’s website at http://scholar.library.miami.edu/sixties/

Grading: Class attendance is mandatory along with good note taking. Sign-in sheets will be provided each session. The registered student has already made the academic pledge of commitment to the course and is expected to be present and to devote the time and the intellectual energy required of the course. The student should keep in mind that grades will be based on readings, lectures, panel discussions, and other materials covered in class. The student’s grade shall be based on a take-home midterm examination (25%), two five-to-eight page interpretive essays (50%; 25% each), and a final examination (25%). All examinations are of the essay variety. Papers must be completed and submitted on time. Late papers will not be accepted.

Required Reading (Texts are available for purchase at the University Bookstore.)

**Schedule:**
(Tuesday & Thursday, 6:25-7:40 p.m., LC 160)
